## Terms and Conditions – R500 Starter Website Package

This document outlines the terms and conditions for the R500 starter website package offered by DevSolution. This package is intended for small businesses that need a simple online presence but may not yet have the budget for a full-featured website.

- The R500 package is a once-off payment for the development of the starter website.
- The R500 package includes only a one-page website (1-pager).
- The website may include basic business information such as company description, services offered, and contact details.
- Customer reviews or testimonials can be included if the client provides them.
- This package does NOT include payment integrations of any kind.
- This package does NOT include booking systems, forms, or platforms that allow customers to submit information directly to the business.
- No advanced responsive features or interactive systems will be included.
- Clients will receive a Netlify URL instead of a custom domain.
- The Netlify URL may still be tailored to reflect the business name where possible.
- This package does NOT include any marketing services such as SEO (Search Engine Optimization), advertising, or promotional campaigns.
- The purpose of this package is to provide an affordable starter website for businesses that need an online presence but currently have limited funds.
- Additional features, pages, domains, marketing services, or integrations will require upgrading to a different package or paying additional development costs.

By purchasing the R500 starter website package from DevSolution, the client acknowledges and agrees to the terms and limitations outlined in this document.
